

NOCO Driving Academy LLC.

Photo and Video Acknowledgement

NOCO Driving Academy normally has cameras installed and in operation in the instructional vehicles. If utilized, the ones we use are the type that record both the passenger compartment, the road ahead and behind. The flash card video recordings will be kept for a period of ten days and then recorded over if there is no reason (or request) to keep the video. Such videos may also be retained for instructional purposes.

On occasion, NOCO Driving Academy may ask a group or team of students for a promotional picture in the classroom or while out on a drive for use on our social media pages or website. This is an optional consent request that students may choose not to participate by asking not to be photographed when such a request is made. If parents would prefer that their teen not be photographed in such a setting, it is requested that parents notify NOCO Driving Academy by email or other written correspondence and ask their teen to opt-out during these requested photo opportunities.

No photos or videos will be taken without the students' knowledge.

By my signature below, I am aware of the photo and video policies of NOCO Driving Academy.
